Receiving Your Medication

You've been prescribed a compounded medication to meet your specific needs and is available through Compound Pharmaceutical Technologies. It has been prescribed to you because your healthcare practitioner believes it's an important part of your treatment. This is not intended to be a patient information sheet. Please contact our pharmacy if you have any questions. Do not overuse this product. Should you have any questions, please feel free to contact us at 866-591-6337.

1. We will contact you within 24 hours of our receiving your prescription from the physician. Please feel free to contact us sooner at 866-591-6337 to provide the necessary information.

2. Please have prescription insurance information handy for our call. Please note that some prescriptions may not be covered by your insurance plan.

3. Please note that we do not automatically send out your prescription. We must have your permission to do so. Your quick response when trying to process your prescription is appreciated.

Please see reverse side for other conditions we may be able help!

Topical Instructions

These instructions may apply to your topical medication are not intended to replace your patient information sheet that arrives with your medication.

1. It is recommended to wash your hands before applying your medication.

2. Apply a small amount of the medication to the area as prescribed by your physician.

3. Wash your hands a second time. **Caution: Do NOT touch eyes or mouth before washing hands. (Also, if the medication is to be applied to your hand, do not wash that part of the hand.)**
